A MOST PLEASANT AFFAIR

Social Given by Mr. and Mrs. Neese, in Honor of Visitors.

Mr. and Mrs. J. H. Neese entertained a few of their young friends at their elegant home on Arlington street last evening, the occasion being a social given complimentary to their visiting cousins, Misses Esler and May Wright, of Danville. From 8:30 to 10:15 o'clock the guests were gathered in the parlor enjoying vocal and instrumental music and social conversation, the former by the Misses Wright and Miss Carrie McNairy. At a quarter past ten Miss Sallie Love and Mr. Chas. E. Brower led the happy party into the finely furnished dining room, where a variety of delicious refreshments awaited them. After these had been thoroughly enjoyed, the guests again repaired to the parlor where they remained until 11 o'clock when they reluctantly departed. It was truly an enjoyable affair that will have its place in the memories of those who attended.

Those present were: Misses Ruby Glascock, Carrie McNairy, Gertrude Wagg, Sallie Love and the guests of honor, Messrs. Chas. E. Brower, Thos. A. Glascock, Eugene McNairy, Jos. M. Phillips, Jesse Bodgin, Ben S. Barnes.

AN INTERESTING PERFORMANCE.

Would-be Thief Catches Himself in a Window and His Captor Has Fun.

Early this morning Mr. Bilbro, the watchman at the coal chute, saw the lower end of a man's body protruding from a small window in a box car, set by the side of the railroad near the chute for the sleeping quarters of the section hands. The body and lower extremities were squirming laboriously, as if the man were trying hard to work his way into the car. Mr. Bilbro knew that he had spotted a thief who had caught himself, and knowing that said thief was now his "meat," he watched the process of vermination with a naughty smile on his countenance. The watchman would have looked longer but lack of time forbade and he informed the man of his presence. The man surrendered and was turned over to the police. He is a negro and gave his name as Will Crutchfield.

A Card.

After a long and faithful service, covering a period of about twelve years as director of Centenary (M. E.) church choir, Bro. B. E. Jones has resigned that position on account of throat trouble, and the board of stewards desire, by this method, to express their warm appreciation of his interest and faithful service, and hope that he may ever be the recipient of the blessings promised to the faithful, and that as an additional reward he may have the consciousness of duty well performed.

The committee appointed by the board has selected Mr. R. M. Phillips director of the choir to fill the vacancy caused by the resignation of Mr. Jones.

S. S. Halthcock, Chairman.

Protracted Meetings.

Rev. T. H. Pogram, pastor of the Jamestown circuit, today began the annual camp meeting at Muir's Chapel, five miles west of the city. It is understood that a number of Greensboro people will attend the services at the chapel tomorrow and that some will camp there while the meeting is in progress.

Every year scores of people from the city go out to the evenings services. It is a nice drive and at Muir's the old-fashioned enthusiastic camp meeting is still in vogue and one feels that it is good to be there.

Rev. J. B. Taber yesterday closed a successful meeting at Lee's Chapel, six miles north of town. Much interest was manifested and seven conversions resulted.

Statement From Dispensary Board.

WILL THEY ACQUIT DREYFUS?

Conflicting Speculations as to the Result of the Trial.

A VERY STARTLING REPORT.

The Assassin Will be Caught—M. Labori is Getting Along Well—Will Attend Court Monday.

By Cable to THE TELEGRAM

Rennes, August 19—Captain Caignet, General De Boisdreffe and General Goussier were witnesses today. Paty De Clam was called but did not appear. Jouast said his testimony would be taken by the commission. Caignet said De Clam had bushels of documents implicating Dreyfus, but on cross examination confessed that his testimony differed from that given in to the court of cassation. Bois Deffre sweepingly asserted that Dreyfus was guilty without giving evidence to show that such was the case. Goussier was equally emphatic, but Dreyfus cornered him by asking if it wasn't physically impossible for him (Dreyfus) to have done certain things it was claimed he had done. Finally Goussier admitted that it was not probable that Dreyfus had done three things but insisted that it was possible.

Dreyfus, in one part of Caignet's testimony, cried, "That is a manifest lie."

MERCIER MAY BE PROSECUTED.

Paris, August 19—Figaro considers that Mercier's position is compromised from the fact that the Schneider letter was proved a forgery. So he may be liable to prosecution for making use of the forgery.

ACQUITTAL CERTAIN.

Rennes, August 19—Thomas Terrell, of the queen's council, an eminent English lawyer, attending the trial, told the Associated Press correspondent that the judges are shamming severely towards Dreyfus, having secretly made up their minds that the accused is innocent. Terrell says Dreyfus' acquittal is certain.

WILL BE CONVICTED.

London, August 19—An Associated Press Rennes report says that Dreyfus has no chance, that members of the court have not even taken the trouble to read the court of cassation evidence, and that Dreyfus will be convicted.

THE ASSASSIN TRACKED

Rennes, August 19—The police are on the track of the assassin, and expect to capture him in thirty-six hours. Labori is so much improved that he expects to be at the court Monday.

FURTHER TROUBLE IN SAOIA

Is Feared—Ill Feeling Among the Natives.

By Cable to THE TELEGRAM
Aplia, August 19—Although the general situation here is quiet, ill feeling between the natives continues, and further trouble is feared. It is reported the inhabitants are saving money with which to build boats and buy arms. Mataafa has written the commissioner urging that there be no king and suggesting that Dr. Soli, the German president of the municipality at Aplia, be placed at the head of the government. It is reported that Mataafa himself will be elected governor, but this looks confirmation.

FROM ENGLAND TO AFRICA.

Six Months Supply of Compressed Forage and Ten Thousand Horses.

By Cable to THE TELEGRAM
London August 19—It is reported that Colonel McDonald, who was recently appointed to an important Indian command, but who has delayed taking his post, is really waiting to be ordered to South Africa under command of General Walker. A six months' supply of compressed forage and ten thousand horses have already been sent out.

Mr. McCauley's Card.

Appropos of Mr. J. B. McCauley's denial card yesterday, we feel it our duty to say that the statement which provoked the denial was made, not only upon the testimony of more than half a dozen good citizens, but after hearing from Mr. McCauley's own lips that he "was receiving as much to walk the streets as he did to stay in the dispensary."

The incident is not worth a newspaper controversy, and we will let it drop. Personally, we have no ill will for Mr. McCauley, but in justice to all concerned we must say there is a large discrepancy between his card yesterday and his statements on the streets and elsewhere.

Bubonic Plague in Spain.

By Cable to THE TELEGRAM
Madrid, August 19—It is announced that the Bubonic plague has been brought to Oporto on a steamer loaded with rice, from India. Forty-six cases altogether are reported. Spanish doctors now at Oporto telegraph that the disease is diminishing.

CARRIAGE DEALERS ORGANIZE.

North Carolina Carriage Dealers' Association Formed Here Yesterday.

A number of North Carolina dealers in vehicles and harness held a meeting at the McAdoo House here yesterday for the purpose of organizing some kind of association for their mutual protection. W. H. Overman, of Salisbury, was elected by acclamation to the presidency and Joseph Lindsay, of Reidsville, to the secretaryship. It was decided that the name should be the North Carolina Carriage Dealers' Association.

An executive committee composed of the president and C. F. Wadsworth, of Charlotte, J. F. Hargrave, of Lexington, and M. G. New, of Greensboro. The secretory was also elected treasurer. The executive committee was ordered to meet as near September 1st as possible and formulate a constitution and by-laws, submitting them through the secretary to every carriage dealer in the state with a request to subscribe to the same and remit the initiation fee or meet with the body at its next meeting, the place to be selected by the executive committee. The meeting adjourned.

We learn that there are about an even hundred dealers in vehicles and harness in the state, though only fifteen were present yesterday. The purpose of the association is to prevent manufacturers from selling to consumers. This practice by the manufacturers is becoming so common and accordingly detrimental to the retail dealers that the members of the association believe that nearly every dealer in the state will join them.

ANNUAL MEETING

Of the Industrial and Immigration Association.

Greensboro, N. C., Aug. 14, '99.

The postponed annual meeting of the Industrial and Immigration Association will be held at the court house on Monday night, August 21, at 8:30. The regular time for this meeting coming as it did in the midst of preparations for gala week, it was deemed wise to postpone until after the festivities of that occasion were over that we might have a full meeting of the members of this association and its friends. It is desired by the management to render a full and complete account of their stewardship. New officers will be elected at this meeting, and everyone interested in the growth and development of Greensboro should attend and use his best judgment in selecting such men as are in a position to use their time, money and influence in developing the city's manufacturing interests.

We would advise that Mr. M. V. Richards, land and industrial agent of the Southern Railway, formerly occupying the same position with the Baltimore & Ohio Railroad, and one of the highest authorities on industrial progress in the United States, has consented to be present at this meeting and deliver the address of the evening.

Please let the association have your cooperation in making this meeting a success and in laying plans that will greatly increase its usefulness during the next year.

W. M. Barber, J. S. Hunter,
Secretary. President.

Doesn't Like Low Rates.

For the past week the Southern Railway has been advertising round trip tickets to Charlotte for today at the remarkably low rate of \$1.25. The attraction in the Queen City was to have been Rev. A. McLees, "the Black Sam Jones," of Winston, who had been engaged to conduct a protracted meeting in Charlotte. Very few if any people took advantage of the low rate for the simple reason that "the Black Sam Jones" doesn't like colored excursions and when he heard that the Southern was going to take advantage of his presence in Charlotte he promptly refused to go. Thus the Southern broke up a meeting but the Southern's intentions cannot be called bad.

Moonshiner Caught.

Deputy Marshal Griffin, of Salem, arrived here today with J. F. Johnson, an alleged moonshiner who formerly carried on business in Surry county. The prisoner was carried to Winston last night by a revenue officer from West Virginia where he was captured several days ago. He was delivered to Marshal Millikan.

THE POLITICAL POT IN N. C.

Is Beginning to Bubble Even This Early.

THE ELECTION A YEAR OFF YET

But White Men's Clubs are being Organized and will be Extended

All Over the State.

Special to THE TELEGRAM.

Washington, August 19—A gentleman from North Carolina who was in the city yesterday in speaking of the political situation in the State, said that the demo rats were already beginning to organize in different sections of the State, for the campaign for the adoption of the proposed amendment to the State constitution limiting suffrage. Organizations have been effected at Raleigh, and in Richmond county, and other counties of the State, for the purpose of keeping up the interest in the amendment, and getting out as large a vote for the suffrage clause as possible. The gentleman referred to stated that the democratic party is much better organized on this question than are the Republicans, who seem to have no organization at all. The republican leaders, he says, are divided in their opinions, many of them believing that it will be better for the party to allow the amendment to be adopted, and thus eliminate the negro from consideration in future campaigns. A large number of the rank and file of the white republicans and populists, he says, will support the amendment at the polls. The colored vote will be cast solidly against the amendment, of course, and they will be aided by a large percentage of the white republicans.

It is thought by North Carolina democrats in the city that it will not be long before the organization of white men's clubs for the purpose of agitating the adoption of the suffrage amendment will be extended through every county in North Carolina, and an active campaign will be entered into. It is said that interest in the State in other political matters is not very deep, but that the suffrage amendment seems to entirely absorb public attention.

It is said that an attempt is being made to inject the race issue into the Virginia senatorial campaign. According to the information, a demand is to be made for the removal of all of the negro office holders in the State. It is not, of course, believed that Governor Tyler will agree to take this course, in which event the opposition faction, according to the yarn, are to spring the race issue upon him. It is almost needless to say that this report is not believed by the majority of the Virginia people coming to Washington. It springs from a Richmond editorial in some of the western newspapers, and is probably a pure campaign fabrication. There is no race issue in Virginia, and as long as the State administration remains in the hands of the democracy, there is no likelihood of there being one, nor any necessity for the bringing of such an issue into the State campaigns.

Charlotte, North Carolina, people coming to Washington say that city is rapidly becoming one of the prominent cotton manufacturing cities in the south, and that as a consequence the population and business of the town have shown within the past few years a large increase. A gentleman from the state said yesterday that the manufacture of cotton was begun at Charlotte about a dozen years ago. There are several fine mills, and the town enjoys every facility for the manufacture of cotton goods. The gentleman stated that the advantages of Charlotte in this line are equal to almost any other town of its size in the south, and that the advantages will increase as the population and enterprise of the city continue to grow.

The gentleman stated that within the next few years he expected to see the manufacturing interest of Charlotte grow and expand beyond what was dreamed a few years ago.

Ex-representative Libby, of Virginia, who has been in the city for several days, has returned to his home at Phoebus, leaving here last night on the Norfolk and Washington steamer boat. Mr. Libby says the yellow fever has done his action much harm in a business view.

Mary R. Hammond, of Fort Meyer, Virginia, a widow of a soldier killed during the war with Spain, has just been granted by the pension office a pension of twelve dollars a month.

A new post-office has been established at Jute, Stokes county, North Carolina. This office is located 24 miles north of Campbell, and 31 miles south of Jewell. Jyles M. Sheppard has been commissioned postmaster. J. G. Warlick, of Charlotte, was in Washington yesterday on personal business. He is stopping at the St. James Hotel and will remain several days. Among other North Carolina people in Washington are J. G. Williams and wife and family, of Red Springs; Rev. W. C. Alexander, and daughter Miss Sallie, and J. H. White, of Elizabeth City.

DEAD AGAINST DREYFUS.

Judges of the Court-Martial Prejudiced Unfavorably.

Rennes, August 18—From the point of view of reason and truth, it has been a great day for Dreyfus. From the point of view of the seven officers sitting in judgement, today's exposition of the intricacies of the case by Picquart, whose knowledge of its mysteries is more complete than any others, may or may not have been a revelation which would sweep all doubts from unprejudiced minds.

Picquart's testimony, which occupied the entire session, left no corner of the case unexposed, but it became more and more evident that it will not suffice to show the worthlessness of all the so-called proofs of Dreyfus' guilt or establish belief in his innocence.

The unconscious bias of the judges is beginning to find frequent expression which dumbfounds American and English observers. President Jouast today repeatedly stopped Picquart in order, as he expressed it, to bring him back to the point; but all the preceding officers and ex-ministers were permitted to declaim on irrelevances unchecked. A prominent Frenchman, well acquainted with the members of the court-martial, told your correspondent today that they were without exception anti-Dreyfusites, yet he believed the court would acquit the prisoner by a majority vote on account of lack of evidence.

Picquart and other witnesses today confronted the man arrested at Doi, suspected of being Sabori's assassin, but failed to identify him. He will probably be released tomorrow.

A POLITICAL PULLER DOWN.

The state of North Carolina, he said, was not in a prosperous condition and the demonization of silver was the cause of it. The citizens had turned their hands to truck farming, but the heavy freight rates to the popular centers was a great drawback to its prosperity. There was a good deal of money in cotton milling, but it required heavy capital to succeed in it.

The above paragraph is an extract from a reported interview with Judge Walter Clark in the Denver (Col.) Daily News. The Newbern Journal of Thursday copied it and in commenting upon it says:

And it is just such political pullers down of North Carolina's interests, as Justice Walter Clark that makes it so hard for those who stay at home, who by word and deed try to impress outsiders that North Carolina is a good state to live in.

"The state of North Carolina is not in a prosperous condition," says this defamer, Judge Clark.

If this statement of Judge Clark is true, then every newspaper of importance, every leading merchant and every prominent citizen of North Carolina, all are liars of the most pronounced type, for it is daily published throughout the state that every material interest is prosperous, and still growing in prosperity.

Judge Clark's remark on truck farming is but half a truth, and its basis is that it gave him an opportunity to cast a slur on the railroads of this state.

There was a good deal of money in cotton milling, but it required heavy capital for one to succeed in it, it is another thrust and disparagement of a great industry in this state.

"What if it does take 'heavy capital,' is it not coming, and would it come to be invested in North Carolina cotton mills if such an investment was not profitable?

The cotton mill situation in North Carolina thoroughly refutes Judge Clark's estimate of that industry, but how are those who read his discouraging remark in Colorado to know differently?

And how has the "demonization of silver" so wrecked the financial standing of North Carolina?

Is it evidenced by the fact that bonds issued in Judge Clark's own city, Raleigh, have sold to such an advantage, at such a premium, that it has been noted as extraordinary in financial journals in the north?

And how about the various bonds issued by other towns in North Carolina, which have been quickly taken up by investors and various high premiums paid for them?

The fact is that Judge Clark would not recognize prosperity if he met it, simply because his political wheels are buzzing so hard in his head, and because prosperity, with a big P, or a little p, does not fit his political aspirations.

But withal it is hard for those who really have the Old North State's welfare at heart, who strive to sustain her good name and build up her institutions, it is severe upon these North Carolinians to have such a political puller down of this state's material affairs, as Judge Walter Clark, going about in other states talking down its prospects and disparaging the efforts of the sincere workers in the state.

The "demonization" of such perpetual office seekers as the Walter Clark class, who put self before all else, would do much to restore the "prosperity" which Judge Clark claims is now so sadly wanting in North Carolina.

The Journal's comment is unmistakable and shows that the editor is not a populist, but that he is a defender of the Tarheel State. But it is not surprising that Judge Clark is thus put down as a defamer of the State when you recall the fact that he was recently the leader in an effort to defame his own church college.

The Charlotte Observer also copies the Journal's comment and adds:

All this is severe but just. It is, as our Newbern contemporary says, very, very hard for us who stay here from week to week, talking up the State and telling what a good State it is to live in, to have a calamity howler going abroad and neutralizing our work by telling how poverty-stricken our people are and defaming our chief interests.

When the debris shall have been taken up and carried off from the railroad yards here, and the engine "greasing grounds," etc., removed to a spot outside of town, the incoming

stranger must have quite a favorable impression of Greensboro. The Southern has shown much interest in our city. She has presented us with the finest depot in the state, the very best passenger and freight accommodations, etc., and work has been going on for some time beautifying the grounds, which we are informed will be continued till all the eye-sores that now mar the pretty stretches of track shall have been entirely cleared away. For all of which the Telegram and the people of Greensboro extend to Superintendent O'Brien congratulations and thanks.

HOW SHALL WE ESCAPE TYPHOID FEVER?

Greensboro is very highly blessed in the matter of typhoid fever. There is but a very small showing of the disease here, but as in the case of all towns, there is some. But it behooves us as a city and as individuals to be entirely free from typhoid, which we believe can be effected by using the proper precaution. Butter, milk and drinking water are the common vehicles for the transmission of the typhoid germ. We were talking with a very intelligent and conscientious physician on the subject recently and he told us that city water, from which very few people apprehend danger, can really very easily become infected with bacilli from several very reasonable causes. He advised that no milk or butter be used, especially in hot weather when the germ is most active, and that all the water we drink should be boiled. There is no danger in the use of artificial ice, which receives purification in the boiling process which it undergoes.

We are sure that if our people would observe these simple precautions, that a case of typhoid in the city would be a very great rarity.

Is It Right for an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this remedy in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by C. E. Holton, druggist.

A short hint for young writers—Don't.

Mr. A. Saunders, writing from Coconut Grove, Fla., says there has been quite an epidemic of diarrhoea there. He had a severe attack and was cured by four doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says he also recommended it to others and they say it is the best medicine they ever used. The baseball pitcher that goes to the saloon too often is sure to get broken.

How to Look Good.
Good looks are really more than skin deep, depending entirely on a healthy condition of the vital organs. If the liver is inactive you have a bilious look; if your stomach is disordered you have a dyspeptic look; if your kidneys are affected you have a pinched look. Secure good health and you will surely have good looks. "Electric Bitters" is a good alternative and tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at C. E. Holton's drug store. 50 cents per bottle.

Neogenesis.
O priceless, peerless Gospel of St. John!
Wherein the Logos—the Incarnate Word—
Mirrors Himself, as in a sea of glass!
How sad and strange that I so long have viewed.
With listless eye and undiscerning heart
Thy tender, loving portraiture of Him,
Whom here I hail as Prophet, Priest,
and King—
Christ—Son of Man, no less than Son of God—
Christ, only Son of God, as Son of Man!
Rest here, my soul! Behold thine all in all
Of love eternal—infinite—divine!
Gaze now, and gladden with an awful joy,
Quick with tense pulsings of immortal life!
Look! look and live! See leprosy of sin,
Birth blinded eyes, and lameness from the womb—
All doubt—all dread, and every thought of ill
Evanish like the phantoms of a dream!
The troubled seas are passed, that knew no rest;
The present calm preludes no after storm,
Far life in Him is kept in perfect peace—
Serene—pellucid, as an Alpine tarn
Kissed by the Shimmer of the Morning Star!
—Theo. A. Hill.

Irritating stings, bites, scratches, wounds and cuts soothed and healed by DeWitt's Witch Hazel Salve—a sure and safe application for tortured flesh. Beware of counterfeits. Howard Gardner.

You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. C. E. Holton will refund your money if you are not satisfied after using it. DeWitt's Little Early Risers,
The famous little pills.

You have been in the power house of
some great plant of machinery. Did it
occur to you that your body was a more
wonderful machine?
In the term of a natural life the heart
beats three thousand million times and
with a pressure of thirteen
pounds to the stroke, lifts in
that time, half a million tons

of blood. What care are you taking of
this wonderful machine?
Shortness of breath, buzzing in the
ears, dizziness, palpitation of the heart,
sleeplessness, stomach trouble, indigestion
are only some of the evidences that
the machinery is undergoing a strain
which sooner or later will break it down.
What the lubricant is to the machine
of iron, Dr. Pierce's Golden Medical
Discovery is to the machine of flesh and
blood. It reduces friction to a minimum
and keeps the great organs in proper
running order. It does this by healing
diseases of the stomach and organs of
digestion and nutrition, and increasing
the flow of pure and healthy blood.

WINE OF CARDUI

Woman's Crowning Virtue.

For years I suffered terrible pains every
month and my doctor told me I could not
be cured except by an operation. I felt I
could not submit to that and was so des-
pondent I had given up all hopes of a cure.
My husband insisted on my trying Wine of
Cardui and at last thank God I did try it.
Last month I did not have a pain, and did
all my work, which I had not done in seven
years.
MRS. MINNIE LITTLE.

Wine of Cardui

Modesty is the crowning virtue of American women. It is the trait
that all mankind admires. A modest woman is the most pleasing of all
created things. Because of this becoming virtue thousands of women
prefer to suffer untold miseries rather than confide their troubles to a
physician, and to even think of submitting to an examination is revolt-
ing. They can't get their own consent to an operation. Wine of Cardui
permits sensitive women to retain their modesty. With it they can cure
"female troubles" in the quiet of their own rooms. If special treatment
is required they can write to the Advisory Department of the Chatta-
nooga Medicine Co., and their letters will be promptly answered by
women trained in the cure of
womanly weaknesses and irregu-
larities. There should be no hesita-
tion. Delayed treatment means a
chronic condition. The longer
postponed the harder to cure.
